World Exonumia Mail Bid Sale Number Three - 30 May 1978

Dear Fellow Collector,

I am fortunate to be able to offer some exceptional material in this sale. Featured are two sections of almost 200 Counterstamps, including many Merchants. Another area featured is that of exonumia of the Louisiana Purchase Exposition, with almost 200 different items, including many rare and unlisted pieces. The other featured area is the California Collection of over 900 different Masonic Chapter Pennies, including 40 World Chapter Pennies and over 80 items of miscellaneous Masonic exonumia. This is the largest collection ever offered individually in any mail bid sale or auction. In addition the condition is superb, with the vast majority being Uncirculated and better!

The next sale in the Fall of 1978 will contain some choice Civil War Tokens and a smaller grouping of Masonic Chapter Pennies from the California Collection. An excellent consignment of 1893 Columbian Exposition exonumia has been promised, along with U.S. Storecards, So-Called Dollars and Century of Progress exonumia. Other consignments invited.

SUBSCRIBE: Catalogs are sent by subscription ONLY. (Subscribers: You will be notified when yours expires!). While I would like to send catalogs out free, high costs (almost \$1.50 each) force me to make a nominal charge. The next three sale catalogs with Prices Realized will be sent for only \$3.00 to the Continental U.S. (\$6. for North America Air Mail; \$8 for World). Send in your check before 29 May 1978 and the P.R. to this sale is free.

Your continuing comments and suggestions are appreciated. Due to several inquiries the Bidding Rules have been changed slightly. Remember this is a mail bid sale (not an auction) and absolutely no information on high bids will be revealed to anyone, prior to the closing. Also, bids are reduced to 10% over the second high bid. Consignments are wanted now of all types of quality exonumia. Write for complete information and competitive rates. And yes, I do purchase outright!

BIDDING RULES — PLEASE READ CAREFULLY

1. By submitting bids you agree to the following terms of sale.
2. Bidding Deadline is 10 p.m. 30 May 1978. All mail bids must be received by 30 May. Please allow sufficient time for the Post Office to deliver your bids. Late bids may be called in at 815-226-0771 until 10 p.m. No information on current high bids will be given out. Bids will be reduced (See rule #11).
3. All items are guaranteed to be genuine and as described. Should any item prove to be a copy, replica or counterfeit, it may be returned at any time for a full refund.
4. No tie bids, earliest postmark gets the lot. Bid in odd amounts: \$5.18 vs. \$5.00.
5. Minimum bid on every lot is \$3.00.
6. I reserve the right to withdraw lots and reject unrealistic bids.
7. All lots will be sent AIRMAIL INSURED on values up to \$200 and REGISTERED over \$200. Postage, insurance and packaging will be added to all lots, as well as 5% sales tax for Illinois residents. Bulky items will be sent by insured UPS. Specify alternates.
8. Auction sales ARE NOT approval sales! All returned lots MUST BE MADE WITHIN FIVE DAYS of receipt. Your errors are your responsibility and ours are ours. The only legitimate reason for returning a lot is if it has not been correctly described. Any return must be insured for full value and reason for return given. No lots removed from the original holders may be returned for any reason.
9. If you are not sure what a lot is, please write or call for detailed information such as a rubbing (free with SASE) or photo. A black & white 3-1/2x5" print of any lot (obv. & rev.) is available at \$1.00 each; \$5.00 minimum order. Lots may be examined at any coin show I attend prior to the sale (request specific lots in advance, please!).
10. Bidders may limit purchases by specifying the amount they wish to spend. List bids in the order of preference. Bids will be executed in that order until the purchase limit is reached. You may also place a single bid on any group or partial grouping of lots, such as all from one state, while also bidding on individual lots.
11. Items will be sold to the highest bidder at a 10% advance over the second high bid. Bids under \$10.00 will not be reduced nor will bids be reduced to under \$10.00.
12. All invoices are payable within FIVE DAYS after receipt.
13. Most photographs have been enlarged to show details. Please note they are not equally enlarged. Sizes given are usually in millimeters.
14. The Guide Price (\$XX) is to be used as a GUIDE ONLY. These estimates are based on my research and knowledge and are the estimated market prices. Please feel free to bid higher or lower. Bids will be reduced.
15. In a very few cases I have duplicates of a lot. I reserve the right to sell a duplicate in the same grade as the lot description to the underbidder.
16. No deposit required.

MEDALS OF THE UNITED STATES MINT

World Countermarks on Medieval and Modern Coins

AN ANTHOLOGY EDITED BY

Gregory G. Brunk

This volume, eighth in the series, *GLEANINGS FROM The Numismatist*, attempts to provide a general reference on countermarked coins. Its contents includes the famous articles, "A Trial List of Countermarked Modern Coins of the World," by F. G. Duffield (from *The Numismatist*), and "The Coinage of the West Indies with Especial Reference to the Cut and Counterstamped Pieces," by Howland Wood (from the *American Journal of Numismatics*).

While it's impossible to identify every countermark using this 416-page, hardcover volume, there's no better source for material on countermarks than *The Numismatist*, and approximately 50 highly-illustrated articles from that journal are reprinted in this work.

To make this anthology of even greater value, a new foreword, supplementary bibliography, and price guide have been added by Gregory G. Brunk.

Also by the editor are three new articles entitled, "A Revision to Duffield's, 'A Trial List of the Countermarked Modern Coins of the World,'" "Revisions to Wood's, 'The Coinage of the West Indies,'" and "Additional Countermarks of Africa, Asia and the Middle East," the first and last of these containing new halftone illustrations.

This volume will make an excellent starting point for new collectors of countermarks, as well as being a valuable general reference for more experienced enthusiasts.

EDKINS' CATALOGUE OF COAL COMPANY STORE SCRIP

Compiled by Donald O. Edkins.

Describes in detail and gives approximate market value, through a rarity scale rating, of every piece of coal company store scrip token that has been submitted to the author for listing purposes over a five-year period, up to December 31, 1976.

Five hundred pages (approx.) containing over 10,000 described tokens, with many pages of illustrations. Indexed for easy attribution. A monumental work, long awaited by experienced and novice collectors. A valuable addition to the numismatic libraries of collectors, dealers and institutions.

THE FIRST CENTURY 1792 - 1892

by
R. W. JULIAN

\$37.50
Postpaid

The Token and Medal Society proudly announces publication of R.W. Julian's long awaited book on U.S. Mint medals of the 19th century, a result of several years research into government and museum archives. The last work on this subject, written in 1878 by J.F. Loubat, covered some eighty official medals. Julian's work, in comparison, lists over 570 public and private pieces struck at the Philadelphia Mint during its first 100 years, 1792-1892. Destined to become a standard, this book is a must for numismatists with special interests in this area, and an indispensable reference for any medal collector interested in the history of the U.S. Mint or the development of American medallic art. Features to look for in this accomplished work include:

- 9 x 11 inches in size, over 475 pages
- Elegantly hardbound in cloth with embossed cover and printed on quality heavyweight paper
- A detailed history of the medal operation at the Philadelphia Mint
- Over 570 medals listed
- Over 1100 illustrations including medals, mint structures, officials, artisans, operations and more
- Available background information and discussions for each medal struck at the Mint
- Mintage figures and lists of officials
- Cross reference to previous works on the subject
- Index of artists and medallists

POSTSCRIPT

Interest in virtually all types of exnumia continues to grow, with strong demand and prices for most areas. With 40% more lots and 40% more bidders over the last sale, this sale proved to be very popular, providing something for everyone. This sale offered the California collection of Masonic Chapter Pennies, the largest ever sold in any mail bid sale, with most states actively bid. The Alaska Pennies were the most popular, with record prices and number of bidders. Interest was strong for the Hard Times and Civil War Tokens, with many active and advanced collectors competing for material. The U.S. Storecards and So-Called Dollars also drew an enthusiastic response. Other areas of strong demand included the Civil War Dog Tags, Bryan, Dewey, Counterstamps, Love Tokens and the Louisiana Purchase Exposition exnumia, the largest offering in recent years. The next sale is presently scheduled for the Fall of 1978. As we are currently moving to our first house, and there are a few things that need to be done, the next sale might take longer than anticipated! I will be at Houston for the ANA in August, and hope to meet you there. Also, your vote for me for TAMS Board would be appreciated.

REMINDER: All bids must be received by the closing date. Bids from 16 persons were rejected due to late arrival. Please mail your bids early!

SPECIAL OFFER: With a new subscription or renewal, you may purchase a copy of Hibler-Kappen, So-Called Dollars (usually \$12.50) for only \$3.75.

SUBSCRIPTIONS: Catalogs are sent by subscription only. The nominal charge does not cover my costs, but does indicate you are seriously interested. The next Five catalogs, with Prices Realized, will be sent for only Five Dollars. Airmail subscription to anywhere outside the continental U.S. for five sales are only Ten Dollars.

Features include:

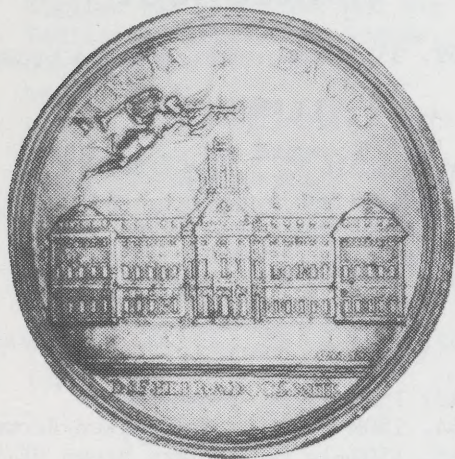

- Hardbound, 6 x 9 inch dimensions, over 650 pages
- Nearly 20,000 listings — political tokens, military, saloon, mining, amusement, vending, parking, encased, wooden nickels and more
- All listings priced except unverified prices, restrikes, copies, and die trials

EARLY AMERICAN MEDALS

(C. Wyllys Betts)

"Betts Medals" prized by the collector because of their historical interest and their scarcity, are medals that were struck by the United States, England, Holland and other countries to commemorate events leading to the independence of the United States in 1776. A recent reprint of the 1894 original volume contains an extensive selection of plates and modern prices.

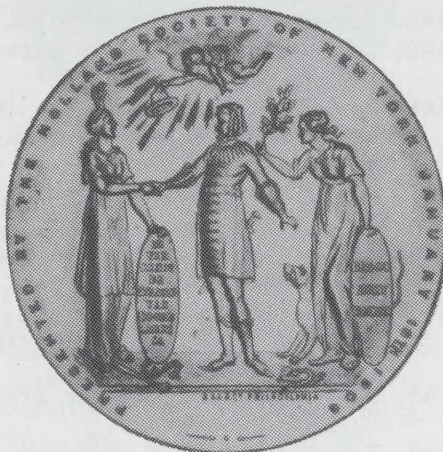

101. Betts 419: Mule of the Louisburg and Quebec, Niagara medals. Brass, sharp XF, light to darkish brown discoloration. (MB\$80, \$120+)

102. Betts 446: "The messenger of Peace" (with trumpets) over the Stadt House (15 Feb. 1763), PLATE. Rev: "Now she dares return. Germany at Peace." Peace standing, with sceptre and spear of wheat, man ploughing in background. Alludes to the Treaty of Hubertsburg. This medal had not been seen by Betts, and the description in Betts errs in that "OEXLEIN" is above, not below the date. Scarce. SILVER. Sharp VF/XF, minor scr. rev. Overall excellent. (MB\$75, \$125+)

103. Betts 515: "Gvilielmvs Pitt:", PLATE. Obv, Bust of Pitt, left. Rev: "The Man Who Having Saved the Parent Pleaded with Success for Her Children". Bronze. Choice chocolate Brown XF, some dark toning around devices. (MB\$85, \$125+)

104. Betts 602: Holland Peace Medal, PLATE. The State of Friesland, Holland was the first Dutch Republic state to officially recognize John Adams as an Ambassador of the U.S. and thereby recognize American Independence (1782). Obv: Center figure, a Frisian in ancient armor grasps arm of Indian maiden (America); at her feet are the links of a broken chain and she tramples on a sceptre. The Frisian warrior turns his back on another female (Great Britain); at her feet is the leopard of England and a coiled adder. Above is an angel presenting the free hat of the Netherlands to America. Rev: inscription dedicating medal. On obv. "Presented by the Holland Society of New York Jan 18th 1906." Choice Brown UNC., Sharp, Bronze restrrike. (MB\$25, \$50+)

105. Betts 604: Treaty of Commerce between Holland and U.S., PLATE. Obv. fame seated on the clouds, supporting the shields of Holland and the U.S., with a naval crown above and the club of Hercules and lion's skin below. She holds a long trumpet. HARD TIMES TOKENS

(Lyman Haynes Low)

The Jackson Cents or so-called Hard Times Tokens were privately issued from 1832 to 1844; the Jackson-Van Buren era. Due to hoarding of gold, silver and the lowly coppers, the pressing need for a medium of exchange spurred novelty companies into making substitutes. Legends on these pieces made use of political propaganda, slogans, mercantile advertisements and generally imitated regular coinage. A recent (Jan 1978) reprint of the 1900 Low reference contains line drawings, historical and background information on many varieties, and a supplemental pricing guide. An updated revision of Low with varieties, a listing of the pseudo-Low tokens (currently only available in early TAMS Journals) and priced in several grades is due to be published sometime this year. Should you be interested in a copy, check the box on the Book Order Form. A new 1978 printing (with new prices only) of the Hewitt Price Catalog of Hard Times Tokens is now available.

CIVIL WAR TOKENS STORECARDS

(George & Melvin Fuld)

The series of Civil War Tokens is divided into two parts: Patriotic and Storecards (Merchants). The Storecards usually bore an advertisement on the obverse and some stock design (often patriotic) on the reverse. The standard reference by the Fuld, revised in 1975, contains detailed die variety information, rarities by metal and variety, and photographs of most obverses and reverses. Storecards were issued in 23 states and almost 300 towns, with over 8400 varieties known.

U.S. STORECARDS

(Donald Miller)

Perhaps one of the most undervalued
fields of exnumia, the Catalog
of U.S. Storecards covers a wide
field, from California Territorial
Gold and colonial coins to Hard
Times and Civil War Tokens and
other early (pre 1920) tokens used
for advertising or to supply a me-
dium of exchange. The following
comment is by W. Elliott Woodward
in 1884:

"Many of these cards and tokens are
amongst the very rarest of American
issues, and if the word RARE with
its superlatives is thought to occur
too frequently, let it be attributed
to the fact mentioned, which every
collector knows is perfectly correct.
The 1804 dollar and the 1802 (half)
dime are actually common in compar-
ison with many of these pieces, and
I confess, that apart from their
money value, I regard them as much
less interesting. These pieces
and the political series, are an
epitome of the political and busi-
ness history of the country, while
the mint series is--money--that's
all."

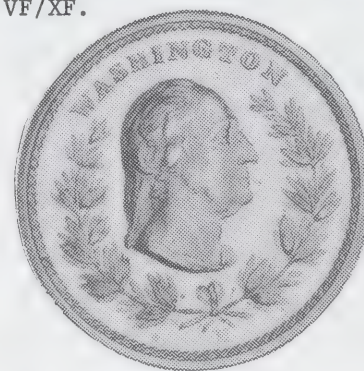

The Miller catalog is an updated
(1962) and priced revision of the
1920 Adams listing. In the over
15 years since publication, many
new discoveries and changing col-
lector interest has altered the
price structure and completeness
of the book. A new revision is
scheduled to be issued in 1980.
As the book is currently virtually
unobtainable, an intern reprint is
to be published soon. The Miller
catalog remains the only guide to
the wide field of early Merchant
tokens, a fascinating area of ex-
numia.

SO-CALLED DOLLARS

(Hibler-Kappen)

612. HK1 in SILVER: HK1000. PLATE. Erie Canal Completion of 1826. The canal was started in 1810 from the Hudson River to Lake Erie. It proved to be one of the main factors in our national development by directly opening the West to agriculture (reducing freight costs 95%). Obv: Pan and Neptune, seated; rev. New York Coat of Arms with section of canal, "Presented by the City of New York". The SILVER is listed as Uncollectible (less than 5 specimens known). This beautiful and historically important medal is a strong XF/AU with Proof-like fields and light peripheral toning, some hairlines. An excellent specimen, very sharp and defect free. RARE. MILITARY TOKENS

(James J. Curto)

Mr. Curto is currently revising and updating his book on Military Tokens of the United States. It will contain over 3000 new listings with revised prices. Should you wish to contribute your new listings, you may write Mr. Curto through me. If you want a copy of the new book, check the Book Order Form. A computer index to the present Curto book is now available.

1761. A57 Philippine Islands. cat. \$7.50. Plated W-M, some plating flaking off. XF+.
1762. A165 Set of 3: 5, 10, 25 (Unlisted). As Sub-post K-55 was renamed "Osan Air Force Base" in the summer of 1962 and the M/SGTS open mess token appeared in circulation about May, it is not likely that other denominations exist for this design. See next lot. VF/XF, plating worn.
1763. (A165-Unlisted): K-55 M/SGTS: 25c::Open Mess; rev: same. Osan, Korea, 1962. Nickel, 24mm. UNC.
1764. (A-Unlisted): "FEES" obv. & rev.: Far Eastern Exchange Service. Used in Korea Army PX, c.1962. Brass, 21mm, (5c), XF.
1765. (A-Unlisted): "JCE" obv. & rev.: Japan Central Exchange Used in Korea Army PX, c.1962 Brass, 21mm, (5c), XF.
1766. A266 Newfoundland. Cat. \$5. XF. (\$15+)
1767. (C-Unlisted): "Sub-Post K-6/(castle)/NCO Open Mass"; rev. same. Set of TWO: 5c & 10c size. K-6 (renamed Camp Humphrey in Fall of 1962) was prior to 1961 a location for a miscellaneous collection of military support units (Engineer, Ordnance, etc.) and the 177 ASA Co. The Engineer Branch Insignia on the tokens reflects this post mission. The 177th ASA Co. Tokens, (Curto R315-25) (the 25c size only) were present in the NCO Open Mess in very large numbers as a deliberate introduction. Doubtful that a 25c size exists for the Castle design. Unlisted in Curto. W-M, plated, 18 & 21mm. XF+.
1768. (C-Unlisted): "K-6 NCO Open Mess/25/Sub-Post K-6"; rev. same Set of FOUR: One 25c size; three 5c size, with dates used/issued. In 1961 two air defense missile units were headquartered at Sub-Post K-6. The token design reflects the changed mission for the post. As the post was renamed Camp Humphrey in Fall 1962, and the earlier castle design 10c size was available in large numbers, a 10c size for this design series probably does not exist. Nickel, 21 & 24mm. XF/AU.

1769. C35-5 The 4th variety of above, the C.H.: Camp Humphrey. Cat. \$2.50. UNC.
1770. F125-10 Fort Meade, SD. Cat. \$5.00 XF, darkish.
1771. F125-25 Cat. \$5.00. XF.

1773. F184-5 Fort Sill. XF.
1774. F184-10 Fort Sill. XF.
1775. N86-5 & N87-5 (2 pc.) Curto lists the Owl/Crane tokens as being used by the Navy in Vietnam. But in 1962, the 5c size only was used in large numbers by the PX for their vending machines in Korea. XF/AU.
1776. R311-10 UNLISTED 10c variety. Brass, 18mm. XF. (\$15)
1777. R311-25 Cat. \$12.50. Red toned XF. (\$15)
1778. R311-50 UNLISTED 50c. Brass, 31mm. XF. (\$15)
1779. R311-1.00 UNLISTED \$1.00. Brass, 35mm. XF. (\$15+)
1780. R315: Set of THREE: 5, 10, 25. Curto lists this as Vietnam. Probably the unit transferred and took their tokens with them. But in 1962 this unit was located at Sub-Post K-6/Camp Humphrey in Korea. The 25c size tokens were used in large numbers in the K-6 NCO and Officers Open Messes as a deliberate introduction. The 10c and 5c sizes were encountered in the same place as infrequent strays. XF/AU.
1781. SC5: Set of THREE: 5, 10, 25. 10c size is Unlisted: 18mm. c.1962. XF+
1782. SC123: Set of THREE: 5, 10, 25. 25c size is Unlisted: 24mm. Curto describes the design as an "ornamental Japanese gateway". The device on the token, though crude, appears intended to represent the historical restoration of the old South Gate of the city of Seoul, a very impressive fortification. In 1962 the earlier issue tokens (Curto SC-124) were still in circulation, all very worn and in very small numbers. XF/AU.

POLITICAL EXONUMIA

Tokens & Medals

(J. Doyle DeWitt)

The only book on political tokens, etc. "A Century of Campaign Buttons, 1789-1889" was unfortunately limited in production and is not complete. A new and completely revised catalog is currently in production, and will be available in 1980. Many listed tokens are covered under separate categories, notably Hard Times and Civil War Tokens, and Lincolnia. See the Cross-index for a complete listing.

MEDALS OF THE UNITED STATES MINT

World Countermarks on Medieval and Modern Coins

AN ANTHOLOGY EDITED BY

Gregory G. Brunk

This volume, eighth in the series, *GLEANINGS FROM The Numismatist*, attempts to provide a general reference on countermarked coins. Its contents includes the famous articles, "A Trial List of Countermarked Modern Coins of the World," by F. G. Duffield (from *The Numismatist*), and "The Coinage of the West Indies with Especial Reference to the Cut and Counterstamped Pieces," by Howland Wood (from the *American Journal of Numismatics*.)

While it's impossible to identify every countermark using this 416-page, hardcover volume, there's no better source for material on countermarks than *The Numismatist*, and approximately 50 highly-illustrated articles from that journal are reprinted in this work.

To make this anthology of even greater value, a new foreword, supplementary bibliography, and price guide have been added by Gregory G. Brunk.

Also by the editor are three new articles entitled, "A Revision to Duffield's, 'A Trial List of the Countermarked Modern Coins of the World,'" "Revisions to Wood's, 'The Coinage of the West Indies,'" and "Additional Countermarks of Africa, Asia and the Middle East," the first and last of these containing new halftone illustrations.

This volume will make an excellent starting point for new collectors of countermarks, as well as being a valuable general reference for more experienced enthusiasts.

The Token and Medal Society proudly announces publication of R.W. Julian's long awaited book on U.S. Mint medals of the 19th century, a result of several years research into government and museum archives. The last work on this subject, written in 1878 by J.F. Loubat, covered some eighty official medals. Julian's work, in comparison, lists over 570 public and private pieces struck at the Philadelphia Mint during its first 100 years, 1792-1892. Destined to become a standard, this book is a must for numismatists with special interests in this area, and an indispensable reference for any medal collector interested in the history of the U.S. Mint or the development of American medallic art. Features to look for in this accomplished work include:

- 9 x 11 inches in size, over 475 pages
- Elegantly hardbound in cloth with embossed cover and printed on quality heavyweight paper
- A detailed history of the medal operation at the Philadelphia Mint
- Over 570 medals listed
- Over 1100 illustrations including medals, mint structures, officials, artisans, operations and more
- Available background information and discussions for each medal struck at the Mint
- Mintage figures and lists of officials
- Cross reference to previous works on the subject
- Index of artists and medallists

EDKINS' CATALOGUE OF COAL COMPANY STORE SCRIP

Compiled by Donald O. Edkins.

Describes in detail and gives approximate market value, through a rarity scale rating, of every piece of coal company store scrip token that has been submitted to the author for listing purposes over a five-year period, up to December 31, 1976.

Five hundred pages (approx.) containing over 10,000 described tokens, with many pages of illustrations. Indexed for easy attribution. A monumental work, long awaited by experienced and novice collectors. A valuable addition to the numismatic libraries of collectors, dealers and institutions.

"CHITS, CHISLERS & FUNNY MONEY" by Michael G. Pfefferkorn and Jerry F. Schimmel. 1976. 258 pages, 24 plates, illustrations in the text, soft cover. The first comprehensive catalog of the state tax tokens of the United States, this book is destined to be the standard reference work of its field. All tax token collectors will find this catalog an invaluable guide for years to come. A separate 27-page priced checklist will also be included with the catalog

CANADIAN TOKENS AND MEDALS

This volume contains the extensive material published in *The Numismatist* dealing with Canadian token coinage. While most of these articles are over fifty years old, their age enhances their value, as the research of these early pioneers in the token and medal area (even as to their estimation of rarity) is still valid and in many cases has not been surpassed. Varieties usually not included in some standard catalogs receive wide coverage in this compilation.

U.S. CIVIL WAR STORE CARDS Second Edition

by George and Melvin Fuld

Civil War tokens were issued by the millions during the war years of 1860-65. Store cards, the subject of this volume, were issued by individual merchants, almost exclusively in the northern states, in great numbers. This second edition includes a great number of corrections and additions which have been published in periodicals since 1972 and new discoveries tabulated by Jon Harris from the collections of the American Numismatic Society.

Features include:

- Hardbound, 6 x 9 inch dimensions, over 650 pages
- Nearly 20,000 listings — political tokens, military, saloon, mining, amusement, vending, parking, encased, wooden nickels and more
- All listings priced except unverified prices, restrikes, copies, and die trials

THE LOUISIANA PURCHASE EXPOSITION

Kurt Krueger

Few events in the history of mankind have been more grandiose than the St. Louis World's Fair of 1904. A contemporary historian stated that "If some terrible catastrophe destroyed all manners of historical record, the complete history of the world could be compiled by the displays, exhibits and artifacts which are available for all at the Universal Exposition at St. Louis". His vision of the magnitude of the event was not exaggerated. Virtually all corners of the globe were represented. The numbers and quality of the displays had no previous peer. The buildings, statuary and art were of the finest quality.

Many mechanical wonders of the infant century were boasted for the first time. The world was in a state of mechanized revolt, and the exposition paved a wide avenue for the scholars, scientists and inventors of the day to follow.

Further, it was an exposition not only of man's ingenuity, but of mankind as well. The peoples of the world came to share with their fellow man their customs, ideas and heritages. It was an exposition for all people, of all ages. From the exciting sidelights of the Pike to the awesome wonders of the advent of electricity, people were better able to grasp the aura of a world destined for change.

Much to the delight of the exnumist of today, the heritage of the event was well recorded upon little discs of metal, colorful bits of celluloid and countless other pieces of material. The exposition was a prolific issuer of commemorative tid-bits, many of which are among the most striking of any similar event.

For decades, the "in" collecting field with regard to expositions was the World's Columbian Exposition of 1892-93. While Columbian Expo material still boasts an enthusiastic following, St. Louis material is rapidly gaining momentum. A decade ago, the number of serious collectors of St. Louis material could be counted on the fingers of one's hand. Today, 1904 material is actively sought by many.

Several factors underlie the recent popularity of 1904 collectables. The single most important factor was the release of a TAMS Journal supplement by Nate Eglit on the subject in 1971. Further, several scholars have shared with the fraternity their knowledge of the subject.

Looking towards the future, collectors can count on one, possibly two reference works devoted to 1904 St. Louis World's Fair material (scheduled for 1979, the 75th Anniversary Year). These works should result in even greater interest in Louisiana Purchase Exposition exonumia.

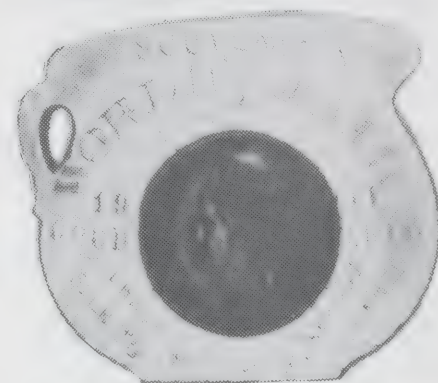

LOUISIANA PURCHASE EXPO St. Louis, 1904

The only published listing of Louisiana Purchase Exposition exonumia is by Nathan Eglit, published as a TAMS supplement in 1970. He lists some 130 items, including tokens, medals, buttons, watch fobs, mirrors, encased coins, elongated badges, etc. This is basically the Charles Lipsky collection, the largest and finest to appear on the exonumia market for many years. The first section consists of Eglit-listed material (LPE Numbers). As it is assumed all interested bidders have a copy of the Eglit Catalog, only the LPE number and a brief description is given. The second section consists of similar items unlisted in Eglit, with more detailed descriptions and photographs. The third section consists of miscellaneous exonumia such as books, plates, cups, spoons, trays, paperweights, ribbons, stereo cards and other three-dimensional items. As many items have never appeared in a mail bid sale before, those persons wishing a more complete description may purchase photos (\$1.00 each B&W, min. \$5.) or

zerox copies (\$1.00 each for all that fit) of any items. In addition, items will be on display at several shows prior to the sale (See Convention Schedule: inside front cover). The Eglit book is available at \$5.00 postpaid. See the Book Order Form.

2852. Colorado Mine Disturbance Veteran Badge, PLATE. In 1901 the miners of Telluride, Colorado walked out, calling for a set daily wage, and for union representation. Mine owners refused and hired non-union men to reopen the mines. Some 250 armed strikers confronted the scab miners and after killing three, forced the rest to leave town. The owners were forced to agree to a \$3 minimum daily wage. This fair settlement did not bring peace to the mines, for in 1903 there was a general strike of the mill and smelter workers and miners.

In Colorado City the Western Federation of Miners called a strike demanding wage increases and the eight-hour day. A strike of miners in Cripple Creek involved 3500 miners from 50 mines. The mine owners brought in outside miners and appealed for martial law. On 4 Sept. 1903 Governor Peabody ordered Brig. Gen Sherman Bell to proceed to Cripple Creek with the militia to maintain peace and order. On 6 June 1904 (10 months later), an explosion at the Findley Mine railroad station killed 13 non-union miners. The mine owners were quick to blame the union, precipitating lynching, censorship and destruction of the local newspaper. Mobs stormed the union hall and the militia arrested union men and sympathizers. By the 10th over 200 men were forcibly deported from the Cripple Creek district. Soon the mines started up again (with non-union miners) and the militia left 26 July.
